

Masotti & Berger among the italian legal firms for AttrACT

Milan, February 16, 2017 - Masotti & Berger is an integral part of the panel of legal advisors involved in the AttrACT project founded and promoted by Regione Lombardia, with the aim of building a clear framework to attract new business and investments to Lombardy.

At a time when investments are a fundamental element for economic development, Lombardy, the economic engine of Italy's institutional and socio-cultural business system, is the gateway for foreign investments and at the frontline facing the challenges imposed by global changes.

The 5th edition of Invest in Lombardy Days, the main event in Italy dedicated to the theme of attracting foreign investment to Lombardy and Italy, was an opportunity to present the AttrACT project. Among the many working groups, the "Reduce the cost of uncertainty for investors" panel featured Luca Masotti, Founding Partner of Masotti & Berger, amidst the protagonists.
