

***Luca Masotti of Masotti & Berger among the speakers at round table conference
on
"The small-to-medium size companies' answer to the M&A market: issues and
positive potential"***

Milano, 24 May 2017 – Today's round-table conference, held in Milan by publishing group Le Fonti, is focussed on M&A resources.

The meeting, titled "*The small-to-medium size companies' answer to the M&A market: issues and positive potential*" will be chaired by Angela Maria Scullica, publishing director of *Legal* and *World Excellence*, the Group's two monthly magazines. Among the speakers, Luca Masotti, founding partner of law firm Masotti & Berger.

"We know the potential of Italian companies – whatever their sector or geographical location – in terms of appeal to foreign markets, to domestic multinationals and to the asset management market", says Luca Masotti. "Our ability to spot and monetize the, often hidden, talents of Italian small-to-medium size companies has always been a distinctive feature of our firm. It allows us to support their growth at all stages, with the aim of matching supply to demand in the best possible way. Our deep knowledge of the M&A process as well as of the Italian entrepreneurial landscape and mindset really make a difference when advising companies.

The highlights of the conference will be featured in an article to be published in June in the monthly magazine *Legal*.
